

with the support of the ESP associations

ANPROGAPOR
ASOCIACIÓN NACIONAL DE PRODUCTORES
DE GANADO PORCINO

Dear colleagues,

As you know, this year 2023, the **Spanish representatives of the UECBV**, are in charge of organizing **the annual general assembly of our livestock and meat employers' association, the UECBV**.

In the attached provisional programme you will see that it will take place in **Barcelona on Thursday 26 October 2023** (the afternoon of the 25th will be devoted to technical meetings and the 27th to an optional professional visit).

This year we have opted for a **change of format to create more business interest and encourage the presence of both companies and member associations** at this year's general assembly.

How?

- By creating a **point of supply and demand** for companies with the organization of the **Business Meetings**,
- Focusing the open assembly **on a single presentation** with a topic of general interest that generates debate,
- By allowing **companies to reconcile their business and personal lives** by compacting the timetable.

Therefore, **we kindly ask you to send the attached Business Meetings "NetWorking eXpEriencE" document to all the companies** that are members of your association.

We look **forward to welcoming you personally** in Barcelona,

José Friguls Joe
President of ANAFRIC
