Why?

The European Union of Livestock and Meat Traders (UECBV) is the EU voice of the national federations representing livestock markets, livestock traders (cattle, equine, sheep, pigs), meat traders (cattle, equine, sheep, pigs) and the meat industry (slaughterhouses, cutting plants, meat preparation plants).

The mission of the UECBV is to **facilitate the development** of an environment in which all **EU livestock traders and meat companies** can meet the needs of consumers and society, while competing effectively for sustainable growth.

That is why **the association to which your company belongs is key to this mission, thanks to its member companies.**

UECBV has 50 national or regional federations in 24 of the 27 Member States of the European Union, but also in Japan, Norway, Switzerland, Ukraine and the United Kingdom. In total, some 20,000 companies of all sizes and more than 230,000 jobs are **represented in UECBV** and its national and international federations.

What is the objective?

The objective is to create a platform where the interests of all parties converge to generate trade flows.

In a nutshell:

your company to find new partners,
increase your sales and business contacts,
make the most of an agenda with planned meetings,

Its realisation is conditional on a minimum of business participation.
